Attachments: SRRTTF Letter to WA Governmental Organizations regarding Road Paint_Draft_041918.docx

Flag: Follow up

Attached is the draft letter, now directed to the City of Spokane and Spokane County. Mike and Lisa were to review the draft before wider distribution, but I took the liberty to distribute more widely since I will need Cadie's input on who to direct the City's letter. I also copied the DOT and DES on the letter since this is now relevant to their efforts. I wasn't sure who to direct the letters and copies and elected to go with the top official, and will await your direction for the final letter.

I copied to Dave Moss and Rob Lindsay of the County for their input since the County is also the focus of the letter. Dave & Rob – I can chat with you about this next week at the SRSP meeting or feel free to give me a call.

Greg mentioned sending to the City of Spokane Valley and Liberty Lake...what do you all think about this? I am unsure of their purchasing policies, so we may need to do a little more ground work. Tom?

I would appreciate any comments back by Friday next week (April 27), so I can have a final draft of the letter available for approval during our next TSCA meeting the following week (May 2).

Thanks,

Doug

I forwarded the attached to Doug and Chris Page but thought I should update all of you also. WSDOT's purchasing contract for yellow paint now excludes dairylike yellow. So no need to write the letter to try and push us a little harder. Yea!!!

TSCA Team - I finally had the opportunity to compile the minutes from our meeting on April 4. I compiled the minutes as an addendum to the Proposed Plan of Activities for 2018 with the meeting minutes shown in **Blue** and the Action items shown in **Red**.

Please let me know if I may have missed or misrepresented anything from our discussions.

Doug
